## Professional Experience

Projects **OneLPL** - Web Application under Cognizant Domainhttps://github.com/user/repo— https://project-demo.com/May 2023 – July 2023

- OneLPL is a web application representing all the information and resources of the LPL Financial Account under the Cognizant domain.

- **Purpose :**
  - The site can be accessible within Cognizant intranet as well as from the internet.
  - Provides non-sensitive information related to the account, helping team members to pull reports quickly.
  - Implements role-based access control to restrict data/report access.

- **Objectives :**
  - Creates a platform where useful information related to the LPL Account is available.

- **Tech Stack :** 2
  - Angular 15 MWC Framework in UI
  - Tailwind CSS in UI
  - Prime NG in UI

  - .Net Core 6 in Backend
  - Microsoft SQL Server 2022 in Backend
  - GitHub as a Repository

# Education

**Your University, Degree, Graduation Year**
Your Major                                                                    GPA: X.X/4.0

# Projects

**Project Name**                                                    *Month Year - Month Year*
Brief description of the project and your role.

# Certifications

**Certification Name**                                                          *Month Year*
